DAIKOMYO-SAI

Celebrating 'The Great Cosmic Light'

*An Intensive Seminar w/
Shidoshi Jeffrey M. Miller*

January 6th, 7th & 8th, 2012

Theme: ***"Applying & Escaping from Restraints"***

(Perfect for LEO's, military, security, and those interested
in dealing with wrestlers, MMA fighters, etc!)

Join us for a very special and intensive seminar dedicated to celebrating Grandmaster Hatsumi's and WCI founder, Shidoshi Jeffrey Miller's birthdays. You will participate in an intensive weekend of training, including some of the techniques, tactics and strategies of the 9 schools that are specifically designed for restraining, trapping, and immobilizing an opponent. We will also be exploring the flip-side of this training -- the techniques, tactics, and strategies for escaping from, controlling, and beating fighters who are proficient in the skills for restraining YOU!

***This year's training is designed especially for those who are
training for real-world self-protection!***

* **In addition** to the training, there will be an **optional dinner** on **Saturday evening** at *a local Japanese restaurant where we will celebrate both Hatsumi- soke's and Shidoshi Miller's birthdays!*

About the Training (Why our Daikomyo-Sai is in January!)

Between December and January each year, groups all over the world celebrate Ninja Grandmaster, Masaaki Hatsumi's birthday with training and parties, as the Hombu dojo conducts its own training. For many, the timing or expense involved in attending these events, especially in December, is very difficult. We found that by conducting a 'belated' celebration, people can get through the holidays and many of our friends are then able to feel a part of this auspicious event as you share a special experience with other like-minded practitioners.

Cost: \$ 197. (25% Mastery Club and "Inner Circle" member Discount)

\$100 per single day (or)

\$55 single session

New Year's GOMA only = \$15 (Incl. w/ Seminar fee)

***Sat. Eve dinner not included in seminar fee*
