SPECIAL NOTES:

**** This is not a complete list for all seminars to be held this year. I am currently in the planning stages for a few more events.**

++ Why not host an event in your area? I will work with you to plan, schedule, and host a training event that will both provide the training that you need, and to bring this training closer to you.

* If you are interested in forming a training group and becoming a certified instructor under the guidance of, not only a master teacher in the Ninja's martial arts, but also an internationally-recognized self defense expert and creator of the unique, EDR Training System, send me an email with the words "Group Leader Certification" in the subject line.

I have a very busy schedule throughout the year. In addition to teaching both Ninjutsu, and EDR courses, and related studies, I also consult with companies, universities and schools, and hospitals on the subject of Workplace Violence Defense & Personal Safety Training.

However, **I do have a limited number of hours/days available for 1-on-1 private training** with those students who truly want to put their training on the fast-track. If this is something that you are interested in pursuing, send an email for details to the following email address:
